infocrumbs CSS Validation Report

Note on CSS Validation Warnings:

While striving for full CSS validation compliance, the report may show warnings related to:

- 1. Imported Stylesheets:** Warnings like "Imported style sheets are not checked..." are expected due to the inclusion of external resources such as Google Fonts via `@import` rules. The validator's scope typically doesn't extend to analyzing the content of these external files.
- 2. CSS Custom Properties (Variables):** Warnings stating "Due to their dynamic nature, CSS variables are currently not statically checked" are a known limitation of some validators. CSS custom properties (e.g., `var(--bg-dark)`) are valid and widely used, but their dynamic runtime evaluation can make static analysis challenging for linting tools.
- 3. `background-clip: text` and Vendor Prefixes:** Warnings regarding "The value `text` is deprecated" or "`-webkit-background-clip` is a vendor extension" relate to the use of `background-clip: text` for creating gradient text effects. While `background-clip: text` is a modern and widely supported technique, some validators may flag it due to its experimental status in certain specifications or its historical use of vendor prefixes (like `-webkit-background-clip`) which are essential for broad browser compatibility.

These warnings are understood and accepted, as they are a result of leveraging modern CSS features and ensuring cross-browser compatibility, rather than actual errors in the intended styling.

W3C CSS Validator results for TextArea (CSS level 3 + SVG)

Congratulations! No Error Found.

This document validates as [CSS level 3 + SVG](#) !

To show your readers that you've taken the care to create an interoperable Web page, you may display this icon on any page that validates. Here is the XHTML you could use to add this icon to your Web page:

```
<p>
  <a href="https://jigsaw.w3.org/css-validator/check/referer">
    
    </a>
  </p>
```

```
<p>
  <a href="https://jigsaw.w3.org/css-validator/check/referer">
    
    </a>
  </p>
```

(close the img tag with > instead of /> if using HTML <= 4.01)

The W3C validators rely on community support for hosting and development.

[Donate](#) and help us build better tools for a better web.

If you like, you can download a copy of this image to keep in your local web directory, and change the XHTML fragment above to reference your local image rather than the one on this server.

If you would like to create a link to this page (i.e., this validation result) to make it easier to re-validate this page in the future or to allow others to validate your page, the URI is:

```
https://jigsaw.w3.org/css-validator/validator$link
or
https://jigsaw.w3.org/css-validator/check/referer (for HTML/XML document only)
```

(Or, you can just add the current page to your bookmarks or hotlist.)
